Three day self guided motorcycle tour that will lead you to the capital of Magnesia in Central Greece and the Pelion Mountain. We will meet and greet you in our head offices where you will get acquainted with your BMW rental motorbike. We will do a short briefing on the tour, the itinerary and then you will take off for your moto tour.

Volos is a very attractive city in Central Greece as well as a prominent port. The famous Argonaut expedition, one of the greatest epics in Greek mythology, set sail from the Pagasetic Gulf (the gulf surrounding the prefecture of Magnesia and its capital Volos). In modern times, Volos is a modern city full of picturesque little restaurants, the famous "[tsipouradika](#)", named after tsipouro, the traditional spirit of the area, which is perfect when combined with seafood dishes. Its seafront is the ideal place for a stroll with stunning views to the open sea.

The wealth and long history have left their mark on the city's architecture, conveying confidence and splendor. The mansions, municipal halls, museums, train station and early 20th-century industrial facilities (Tsalapata roof tile and brickworks museum) create the ideal scenery for a truly remarkable tour.

Mount Pelion forms a natural borderline between the district of Magnesia and the Aegean Sea. In mythology was considered the Centaurus Mountain. Well known villages like the classy Makrinitza, the cosmopolitan Portaria, the picturesque Tsaggarada, and the eclectic Vyzitsa and Milies are full of natural charm. The unique Pelion architecture, the stunning views towards the Aegean coupled with an unspoiled natural landscape set the scene for this unique motorcycle tour that will wet your appetite to explore Greece even further.
