Come on an unforgettable enduro motorcycle tour and discover the diversity of Georgia between mountains and deserts, from snow-capped peaks to tropical palm trees. The nature in Georgia is unique and original worldwide. There are more scenic contrasts on this small area of land than on entire continents. At the end of our exciting Enduro Tour you will surely agree with us that Georgia is one of the most fantastic countries on earth!

We pull through the landscapes on our enduro bike!

Put on your helmet, mount the motorcycle and the tour of discovery can begin. In Georgia, a small country with a total area of only 67,000 square kilometers (Germany in comparison: 357,000 km²), you will find 5000 meter high peaks, glaciers, mountain meadows and at the same time a subtropical coast, semi-desert, fertile valleys, wetlands and of course huge untouched forests. Join us on this multi-faceted tour!

1 - Tbilisi - Tbilisi - 0

Arrival, greeting and transfer to the hotel. After the entire group has arrived, the detailed briefing follows. You will receive all the necessary instructions for using the motorcycle as well as all information about the travel plan. After the introductory event, a test drive and motorcycle handover will take place. A mechanic is available to all participants' right from the start to adjust the control levers, adjust the motorcycles and clear up any technical uncertainties.

2 - Tbilisi - Tbilisi - 150

Tbilisi – Rustavi – Dawid Gareja-Tbilisi Enduro tour to Savane: Today you can expect an unforgettable, 130 km long drive through the steppe, which with its barren desert character is reminiscent of a bizarre lunar landscape. The route leads to a forgotten rock monastery, a remote relic from the past with beautiful wall paintings from the Byzantine era. The monastery is an absolute insider tip and is only visited by a few, local off-road tours and not by mass tourism. In the afternoon we visit the famous Dawit Gareja monastery, from the 6th century, which is associated with the origin of Christianity in Georgia and has a particularly high religious and spiritual importance.

3 - Tbilisi - Mtskheta - 180

Tbilisi - Mtskheta Enduro tour to Mtskheta: Today there are around 120 km of off-road terrain over the Trialeti mountain range on the program. The route consists of steep, rocky ascents and descents, crossings of rivers and single treks through the forest. As a reward for the hardships, a hearty lunch is served in the ancient city of Mtskheta at the end of the day. In the late afternoon we visit a world-famous UNESCO cultural heritage site, the medieval cathedral Svetitskhoveli.

4 - Mtskheta - Mkinvartsveri - 150

We will head to the town of Stepantsminda, from where a grandiose view of the top of Mount Kazbeg, 5.033 m above sea level, opens. According to Greek mythology, it was here that Prometheus, chained to a rock, was sentenced to torture. We will drive through the grandiose landscapes of the Great Caucasus Range, parallel to the historic Georgian military road known as the "Heavenly Gorge Road".

5 - Mkinvartsveri - Tbilisi - 0
