Come with us to get to know the Canary Islands archipelago, an adventure through three of its islands with the greatest biodiversity. Gran Canaria with its coasts, full of beaches, cliff routes and mountain viewpoints, will be the beginning of our tour, continuing to Fuerteventura with more than 340 kilometers of coastline and its wonderful sands ... beaches and dunes. Then, we will travel to Lanzarote the island of another planet !, like being in a lunar landscape without an astronaut suit, a totally volcanic island, which invites you to know its fire mountains. It is also known for its unique wines, since they are produced with the grapes that are harvested inside volcanic craters.

Our routes were designed by professional two wheel experts , of recognized trajectory, adventurers of these locations, connoisseurs of each one of the corners of these islands, which allows us to guarantee you a unique experience so that you travel and fully live the diversity and majesty of its geographies.

We offer you an all-inclusive service, which is structured to provide you with the highest level at every moment of our adventure. Our state-of-the-art KTM ADVENTURE 1290 and our business partners guarantee you a priority and exclusive treatment from the moment you contact us. All this adds to our experience and life in the Canary Islands that allows us to take you beyond any other experience on the islands, your comfort and satisfaction being our premises.
