Motorcycle trip Gobi desert

The Gobi desert located between the border between Mongolia and China, is a wild and spectacular place, totally suitable for motorcycling. Our motorcycles are exciting machines, with great power, a good grip on the terrain and others are light, for long distances. We will go through the Gobi desert, passing by tracks, muddy roads, small roads with hardly any company. All this makes our bikes are ideal for this journey. On this tour we also find rock formations, canyons, the Gurvansaikhan mountain ranges and sand dunes up to 100km long, as well as forests of small trees and other types of vegetation.

1 - - Ulaanbaatar -
Arrive Ulaanbaatar.
