Discover this incredible motorcycle tour on the Alps that few know: centuries-old military tracks that cross valleys and crown peaks beyond 2000 meters high, fascinating and little-traveled asphalt mountain passes, marvelous valleys, rivers full of life ...

We will cross the Franco-Italian border of the maritime Alps and we will teach you its secrets and hidden corners.

Live with us an authentic adventure of 6 days, with departure and arrival at the same hotel in Cesana Torinese (Italy), suitable for trail bikes and maxi-trail.

It requires some experience in piloting off the asphalt.
