An extreme snowmobile adventure in the middle of Siberia, we will drive for more than 400km between the icy tundras and the frozen moors of Lake Baikal

Lake Baikal has a length of 636km, and a maximum depth of 1642 meters, which makes it the deepest lake on the planet and the largest freshwater reserve.

Three days of snowmobiling and one day of hovercraft a "hovercraft" capable of traveling both water and ice at high speed with the help of large fans on the back that are used as propellers. An activity on ice perhaps unique in the world.

We will fly to Irkutsk, capital of the province of Oblast where our adventure begins, it is a dynamic city with more than 500,000 inhabitants, it is one of the most populated in Siberia founded in the 17th century by merchants, it conserves old wooden buildings with widely decorated facades .

High quality hotels accompany a perfect organization.
