As we know, Sweden is one of the best countries for this type of adventure, our Swedish partners led by our friend Wilco, will treat us as best as possible so that our adventure in this country is as profitable and fun as we can imagine.

We will enjoy some of the best snowmobiles on the market, the Yamaha Phazer and the Viking (all recently acquired)

The snowmobile adventure will have different activities to suit the client such as dog sleds and of course, the typical saunas of these places, all seasoned with good local food and an incredible atmosphere.

1 - - Stockholm -

Stockholm (Arlanda Airport) once here, we can go to the base in two ways, the first and most comfortable will be flying back to Sundsvall airport, (if you prefer you can go by train to Sundsvall, the name of the station in which we must stop is Stockhol) Whether we come by plane or by train, our companion Wilco will come to pick us up in private transport and take us to our base, where a good dinner and a well-deserved bed awaits us after the hard day of travel. You will stay in small cozy wooden cabin with floor heating and a little kitchen but showers and toilets are in a separate service building.

2 - Stockholm - Sörbygden - 90 Km

Today begins the adventure and for this, the first thing is to learn to take the snowmobiles and this is our guide, who will teach us to take the most necessary machines and tricks once we get on the motorcycles. The first day, it will be smooth since the guide wants to know the level of the participants, so we start following the marked tracks that are on the mountain Today we will stop to eat something in the middle of nowhere, where we will light a fire and cook our food in the middle of nature After lunch we follow the established route and return to our cabin in the middle of the afternoon In the evening a good sauna and a delicious local-style dinner awaits us

3 - Sörbygden - Sörbygden - 90 Km

An exciting day is presented as the plan is to go in search of wild reindeer and for this we will start on the marked tracks but we continue to ride between nature and making our way through our bikes. To eat we will stop at a cabin, where we are expected with a good fire and in the afternoon we continue to fly through large frozen lakes and wild vegetation. At night, when we arrive at the hotel, we will have a good hot bath in our cabin

4 - Sörbygden - Sörbygden - 80 km

Today it is planned to drive through long tracks (depending on customer requirements, you can always change the route) Normally there is a lot of snow, between one and two meters high, so we can enjoy the motorcycles without any fear. To eat it is planned to stop at a local restaurant where we can warm up a bit and taste traditional Swedish food. After lunch we go out again with the bikes in the direction of our cabin every day

5 - Sörbygden - Sörbygden - 50 Km

Today we go out with the motorcycles in the morning, we will stop to eat something in a good restaurant in the area and then we will return to our hotel where we can enjoy a good dinner and a relaxing night (If there is luck we can see the northern lights)

6 - Stockholm - -

Depending on what time our flight or our train leaves, they will take us to the airport or the station so we can go home End of our services, we hope you liked it
