Morocco is the base for offroad motorcycles lovers, so we present you this incredible journey that mixes the bike in its purest state with the luxury and comfort of the hotels in which we will spend the nights, so that everything is the best possible.

All this seasoned with an excellent organization and with some latest KTM 450 cc and 500 cc EXC model motorcycles.

All the bikes have a road book and GPS, so that every morning we will all start together, but depending on the level and skill of each rider, he will be able to go at his own pace, without having to wait or chase anyone, this gives a point of safety extra to our route, since many accidents occur when trying to follow a rhythm that is not adequate.

Every 50 km or so we will make a stop to check that the group and the bikes are OK... At the end of the day we do between 200 and 250 km.

Subsistence allowance:

In this adventure we will have all the diets included (breakfasts, lunches and dinners every day), being the breakfasts and dinners mostly free buffet, and the meals somewhat more frugal, since after eating we still continue riding a couple of hours and we have to be focused and awake.

The trip lasts 8 days in total (from Saturday to Saturday), with the motorcycle being 6 days from Sunday to Friday ...

On Friday afternoon when returning the motorcycles in Midelt, we will be transferred to Fez by minibus, and once in Fez our last hotel night awaits us.

Fez is an incredible city and the third largest in Morocco, in addition to being the capital of Islam in Morocco, during this last day of stay we recommend losing your self for its incredible medina. The medina of Fez el-Bali, is the largest of the two in the city, and is the largest pedestrian area in the world, and was declared a World Heritage Site by Unesco in 1981.

Now you just have to make the jump. Dare yourself! Come with us!
